ULTRA MATT EDGINGS

## People are spending more time at home.

Kitchen is the most used room in the house.

The kitchen has become the most important room in the home, because it is the center of families' day-to-day living and is used for different purposes as food preparation, eating, homework, teleworking, TV-watching and internaining...

... it is all done in the same space!

## Say hello to your new "living room"

Kitchens are now designed predominantly as living spaces.

The ideal modern kitchen contains an ergonomic, easy-to-clean cooking area along with ample storage and a wide range of time-saving appliances. All with enough space and seating to entertain friends, cook with the family, or have a cup of tea while you catch up on emails...

... it should look beautiful and welcoming, too!
