# HIGH GLOSS SURFACES

The high demand for high gloss surfaces is set to continue in line with the demand for ultra matt surfaces.

PROADEC

SURTECO GROUP

After the success with the ultra matt  
range PROMATT, PROADEC launches  
its perfect high gloss counterpart:

PROHIGLOSS  
PREMIUM

# HIGH GLOSS RANGE

The market of high-gloss boards/laminates and the spectrum of corresponding gloss levels are vast. PROADEC gloss edgings are available in three distinct product families (PROGLOSS, PROHIGLOSS and PROHIGLOSS PREMIUM), with gloss levels ranging from 75GU to >90GU to match the gloss levels and surface features of the different MFC, MDF and HPL boards available.

The new range PROADEC PROHIGLOSS PREMIUM has been developed to match premium quality high-gloss surfaces in upmarket interior designs for home and office furniture, kitchens, bathrooms and retail spaces.

# CODIFICATION

**PROHIGLOSS PREMIUM** is a new product family: P

Example of an order in PROHIGLOSS PREMIUM:

Decor 2110 (black)

Material ABS

Width 23 mm (slit material)

Thickness 1 mm

Protective film WITH

This is how the product code will be in the end:

**2.P.01.2110.M.023.110**

# APPLICATION

Given their ABS based material, PROHIGLOSS PREMIUM edgings present excellent processing characteristics.

We recommend buffing should as soft as possible. If the joint becomes too polished it becomes dull and more visible.

Buffer should be adjusted a 90° angle to the board.

PROADEC  
SURTECO GROUP

# PROHIGLOSS PREMIUM

It's not just about gloss, but refinement and resistance.
